

ABSTRACT OF THE DISCLOSURE

Apparatus and Method for Computing Transforms

5 An apparatus includes a primary information storage unit, a secondary
information storage unit, and an information processing unit. The primary information
storage unit has a primary storage capacity. The secondary information storage unit has a
secondary storage capacity. The secondary storage capacity is less than the primary
storage capacity. The secondary information storage unit receives information from
10 the primary information storage unit and the information processing unit processes the
information to form a transform.
